### Upcoming Trainings

Training Date: November 18, 2024

#### **FORENSICS@NIST 2024**

Free to attend live multi-day webinar offered by NIST

Topic: Digital Evidence, DNA, Drug Analysis, Firearms, Foundations of Forensics

### Past Trainings on Arson

Training Date: October 6, 2020

#### **Webinar – How to Prepare for a Fire Expert Deposition and Litigation**

This webinar is being offered by the National Association of Public Defense on Oct. 6, 2020. Proper litigation that involves a fire case usually includes a fire origin and cause expert. There are standards and guidelines that the fire expert is expected to follow. This includes, but not limited to proper investigation, documentation, report writing ...

Topic: Arson

Training Date: May 1, 2012

#### **InterFire.org**

Has several online training modules which give introductory information, but should not replace in-depth research of the issues.

Topic: Arson

### Past Trainings on Biomechanics

### Past Trainings on Blood and Bodily Fluids

Training Date: May 13, 2020

#### **CSAFE 2020: Bloodstain Pattern Analysis**

This presentation, now available to view for free, was given as a part of the Center for Statistics and Applications in Forensic Evidence's (CSAFE) 2020 All Hands Meeting. The meeting brings together researchers, forensic partners, and interested community members to discover potential areas for collaboration, highlight the organization's achievements, and discuss goals for the future. ...

Topic: Blood and Bodily Fluids

Training Date: September 24, 2019

## **Feature-based analysis of bloodstain patterns**

The Center for Statistics and Applications in Forensic Evidence (CSAFE) invites researchers, collaborators, and members of the broader forensics and statistics communities to participate in the September Center Wide Webinar on Tuesday, September 24th from 1-2 pm EST. There will be a short introduction from CSAFE center staff followed by the presentation “Feature-based analysis of bloodstain patterns” by Dr. ...

Topic: Blood and Bodily Fluids, Crime Scene Investigation

Training Date: August 20, 2019

## **Webinar: Bloodstain Pattern Analysis Essentials**

This complimentary forensic science webinar is presented by Toby L. Wolson, retired criminalist and supervisor in the Forensic Biology Section of the Miami-Dade Police Department Forensic Services Bureau. The recorded webinar is available for on-demand viewing. This webinar will focus on: Overview of bloodstain pattern analysis and the science behind the discipline Expert training and ...

Topic: Blood and Bodily Fluids, Crime Scene Investigation

Training Date: January 9, 2012

## **Presumptive and Confirmatory Tests – Virtual CLE**

For more information about presumptive and confirmatory tests, the School of Government has posted a 30 minute online program that you can view for free or for CLE credit

Topic: Blood and Bodily Fluids, Foundations of Forensics

## **Past Trainings on Child Abuse Allegations**

Training Date: October 30, 2019

### **Detection and Visibility of Bruises Using Alternate Light: From Science to Practice**

This Forensic Technology Center of Excellence webinar will cover alternate light, its characteristics, and its behavior in response to potential bruises. The program will summarize the available research, including a recently completed study, on the effectiveness of alternate light as a tool for improving bruise detection. Participants will learn to recognize considerations for the clinical application of ...

Topic: Child Abuse Allegations, Forensic/Sexual Assault Exams

## **Past Trainings on Crime Labs**

Training Date: April 4, 2024

### **Transparency in Quality**

Recording of Quattrone Center 2024 Spring Symposium

Topic: Crime Labs

Training Date: April 3, 2020

## **2020 Forensic Science & the Law Seminar**

NACDL will host its annual forensic science CLE in Las Vegas on April 3-4, 2020. Topics include facial recognition software, SANE evidence, cross-examination of experts, arson investigations, latent fingerprints, electronic evidence, toxicology evidence, and more! Scholarships are available through NACDL.

Topic: Crime Labs, Foundations of Forensics

Training Date: January 21, 2020

## **Crime Lab Proficiency Testing and Quality Management Webinar**

The Center for Statistics and Applications in Forensic Evidence (CSAFE) is offering a webinar, Crime Lab Proficiency Testing and Quality Management. This event will be held Tuesday, January 21st from 11am-12pm, CST. In the wake of recent reports documenting the vulnerability of forensic science methodologies to human error (e.g., NAS, 2009; PCAST, 2016), the field has sometimes pointed to proficiency ...

Topic: Crime Labs

## **Past Trainings on Crime Scene Investigation**

Training Date: May 13, 2020

### **CSAFE 2020: Footwear Impression Analysis**

This presentation, now available to view for free, was given as a part of the Center for Statistics and Applications in Forensic Evidence's (CSAFE) 2020 All Hands Meeting. The meeting brings together researchers, forensic partners, and interested community members to discover potential areas for collaboration, highlight the organization's achievements, and discuss goals for the future. ...

Topic: Crime Scene Investigation

Training Date: December 11, 2019

### **Communicating Conclusions in Bloodstain Pattern Analysis**

The Forensic Center of Excellence will present a free webinar by Jeremy Morris on how bloodstain pattern analysis is communicated through written reports and courtroom testimony. Principles of communication science will be discussed and explained to develop the audience's ability to transfer meaning through writing and verbal testimony. Communication is the act of sending and ...

Topic: Crime Scene Investigation

Training Date: September 24, 2019

### **Feature-based analysis of bloodstain patterns**

The Center for Statistics and Applications in Forensic Evidence (CSAFE) invites researchers, collaborators, and members of the broader forensics and statistics communities to participate in the September Center Wide Webinar on Tuesday, September 24th from 1-2 pm EST. There will be a short introduction from CSAFE center staff followed by the presentation "Feature-based analysis of bloodstain patterns" by Dr. ...

Topic: Blood and Bodily Fluids, Crime Scene Investigation

Topic: Blood and Bodily Fluids, Crime Scene Investigation

## **Past Trainings on Death Investigation**

Training Date: April 10, 2021

### **Western NC Death Investigation Conference**

The annual Western NC Death Investigation Conference will be presented via live webinar on April 10, 2021. The program is being offered by the Northwest AHEC. 6 hours of CLE credit is anticipated. Topics include expert witness testimony, investigation of death due to possible elder abuse or neglect, gunshot wound characteristics, identification and forensic aspects ...

Topic: Death Investigation

Training Date: February 11, 2020

### **Forensic Epidemiology: Monitoring Fatal Drug Overdose Trends**

The Forensic Technology Center of Excellence is offering this free webinar program. Given the vital role of medical examiners and coroners (ME/C) in recognizing emerging trends in drug overdose deaths, partnering epidemiologists with ME/C offices can greatly enhance the utility of the significant volume of data generated by medicolegal death investigation. Epidemiologists from three unique ...

Topic: Death Investigation, Toxicology

Training Date: March 2, 2011

### **The Scientific and Legal Implications of Virtual Autopsies**

Catherine Bailey, research attorney for the National Clearinghouse for Science, Technology and the Law, discusses the scientific and legal implications of virtual autopsies in a three part video. Part 1  
Part 2  
Part 3

Topic: Death Investigation

## **Past Trainings on Detection Dogs**

Training Date: May 1, 2012

### **Drug Detection Dogs: Is this Reliable Evidence?**

This training contains recommendations about what records to request and areas of cross examination. Contains a transcript of an interview of a dog handler.

Topic: Detection Dogs

## Past Trainings on Digital Evidence

Training Date: April 15, 2021

### Digital Evidence – Consumer Electronics and the IoT (Internet of Things)

Live webinar presented by Lars Daniel April 15, 2021, 1:00 pm 60 min of CLE credit (technology hour) anticipated Our world is becoming increasingly hyper-connected. The objective of the Internet of things is for everything to communicate and interface with everything. From wearable technology and smart home assistants, to Internet connected medical ingestibles and social credit scores, more data ...

Topic: Digital Evidence

Training Date: May 12, 2020

### CSAFE 2020: Digital Evidence

This presentation, now available to view for free, was given as a part of the Center for Statistics and Applications in Forensic Evidence's (CSAFE) 2020 All Hands Meeting. The meeting brings together researchers, forensic partners, and interested community members to discover potential areas for collaboration, highlight the organization's achievements, and discuss goals for the future. ...

Topic: Digital Evidence

Training Date: April 17, 2020

### Cell Phone Forensics and Cell Phone Location Evidence Online CLEs

Envista Forensics will present two free-to-view online CLEs in April. 1.0 hours of General or Information Technology CLE credit is anticipated for each session. Attorneys receiving CLE credit will be billed \$3.50 per credit hour by the NC State Bar. The program is being offered for criminal defense attorneys and criminal defense investigators. Registration is ...

Training Date: April 8, 2020

### Cellebrite Webinars

Cellebrite is offering a series of free online webinars. If you are looking to understand more about cell phone forensics, these programs should offer you a better understanding of what law enforcement or independent experts are able to find when performing a forensic analysis of a cell phone. Fundamentals Matter: Part 1 – Basic Setup ...

Topic: Digital Evidence

Training Date: August 28, 2019

### Cell Tower Evidence & The Public Defender

The National Association for Public Defense is sponsoring this one (1) hour training on the importance of cell tower evidence and how to utilize the data to better defend their clients. About the

Faculty: Tom Slovenski is the owner of Cellular Forensics, LLC, located in South Carolina. As a former law enforcement detective and now a ...

Topic: Digital Evidence

Training Date: May 25, 2012

## Digital Forensics for Attorneys

60 minute on-demand School of Government virtual CLE by digital forensics expert Larry Daniel that provides an overview of digital forensic concepts, case examples, and relevant terminology. Attorneys will learn the basic information needed to understand the process of computer and cell phone forensics and the proper methods for search and seizure of electronic evidence. ...

Topic: Digital Evidence

## Past Trainings on DNA

Training Date: March 11, 2021

### Stability and persistence of touch DNA for forensic analysis

Webinar reviewing existing scientific literature, describing lessons learned and best practices for conducting experiments with touch DNA, and describing the initial results of a study designed to evaluate the stability of touch DNA under different environmental conditions.

Topic: DNA

Training Date: September 1, 2020

### STRmix software suite demo

11-minute demonstration of how the STRmix software suite works. This video will provide attorneys with an introduction to the user interface and reports produced by STRmix software.

Topic: DNA

Training Date: May 1, 2014

### DNA Mixture Lessons

Lessons on interpretation of DNA Mixtures online. Includes many helpful examples of the complex phenomena discussed in the lessons.

Topic: DNA

Training Date: May 1, 2013

### BBC Knowledge Explainer DNA

3-minute video explains the basics of DNA's form and function. Though the focus of this animated film is not forensic DNA, it gives important introductory information that is useful as a building block for understanding forensic DNA analysis.

Topic: DNA

## Forensic DNA Mixups

Feb. 2015 Ted Talk video by Dr. Greg Hampikian covers forensic DNA errors including statistical and interpretation errors and contamination issues.

Topic: DNA

## Past Trainings on Drug Analysis

Training Date: April 1, 2021

### Drug Analysis Webinar: Methodology Used for Presumptive Tests and Common Errors Observed

Live webinar presented by Ed Brown, Ph.D. April 1, 2021, 1:00 pm 60 min of CLE credit anticipated  
Materials: PowerPoint Slides This one-hour live webinar will provide attorneys having little science training with the basics about the various chemical analysis techniques employed by forensic laboratories and other contract labs around the US. Although a few technical details ...

Topic: Drug Analysis

Training Date: March 31, 2020

### Hemp: A Forensic Perspective

Forensic Sciences at RTI International is offering a free webinar program on Mar. 31, 2020. The presentation will discuss analytical strategies to answer the question: is the material presented for analysis an illegal product based on its total THC content? The question "is this sample illegal based on its psychoactive  $\Delta^9$ -tetrahydrocannabinol content" has been common ...

Topic: Drug Analysis

Training Date: March 25, 2020

### The Sequel—Marijuana or Hemp: From Farm Bill to Forensic Analysis

Follow up to a previous training posted here. To view this free webinar, linked here, register to create an account and then enroll in the program. Duration of the program: 2 hours. Due to the high attendance and interaction from Marijuana or Hemp: From Farm Bill to Forensic Analysis, the webinar held on January 15th, ...

Topic: Drug Analysis

Training Date: January 15, 2020

### Marijuana or Hemp: From Farm Bill to Forensic Analysis

The Forensic Technology Center of Excellence will offer a webinar on marijuana and hemp analysis. Attendees will hear from experts in agricultural policy, hemp industry analytical testing, and the DEA Special Testing and Research laboratory to obtain a better understanding of the issues that have developed within the field of forensic drug testing since the ...

Topic: Drug Analysis

Training Date: August 13, 2019

## Understanding the impact of drug background levels in forensic laboratories

This free webinar will present results based on a NIST-led, multi-agency collaboration focused on establishing drug background levels in forensic laboratories and understanding the implications for data quality, data integrity, and occupational health and safety.

Topic: Drug Analysis

Training Date: May 28, 2019

## Is it Hemp? An Analytical Strategy To Make Sure It Is

Hemp must be legally differentiated from marijuana. In this free webinar, Dr. Anthony Macherone, Senior Scientist with Agilent Technologies and a Visiting Professor at the Johns Hopkins University School of Medicine, will discuss strategy for screening and quantification of THC in hemp or marijuana. Archived webinar is available for on-demand viewing.

Topic: Drug Analysis

Training Date: May 13, 2019

## Current Trends in Forensics & Forensic Toxicology

2nd Annual Online Symposium hosted by RTI and ForensicEd on May 13-17, 2019. This program offers information on best practices in forensic toxicology, drug analysis, and trace analysis such as sample preparation, method development, and forensic method validation. Presentations are geared toward forensic practitioners, but several of the sessions should be of interest to attorneys.

Topic: Drug Analysis, Toxicology

## Past Trainings on Drug Recognition Experts

### Past Trainings on Experts

Training Date: December 8, 2020

## Mock Juror Perceptions of Forensics

Speakers: Brandon Garrett, Nicholas Scurich, and William Crozier. Presented by CSAFE. Recording available.

Topic: Experts, Firearms, Foundations of Forensics

## Past Trainings on Eyewitness ID
